12 Bike Gated Cycle Shelter

Product Datasheet | USP/GS12/6HR | 18 October 2026

Practical, weather-sheltered parking for up to twelve adult bicycles, featuring lockable mild steel gates, clear UV2 PETG rear and side panels, and an included cycle rack with six square stands and a central locking bar.

12-Bike Gated Cycle Shelter shown with lockable gates, clear UV2 PETG panels and included six-stand cycle rack

Hot-Dip Galvanised After Fabrication

The mild steel used in Urbanfab products is hot-dip galvanised after fabrication to ISO 1461:2022. Total immersion in molten zinc allows the protective coating to reach both external surfaces and accessible internal areas of hollow steel sections, where conventional surface-applied finishes may not provide protection.

The metallurgically bonded zinc coating provides long-term corrosion protection, helping protect against hidden corrosion within hollow sections and reducing the need for future maintenance and repairs. **Find out more at urbanfab.com/why-we-galvanise/.**

Dimensions and Construction

Specification	Details
Capacity	Up to twelve adult bicycles; cycle rack included as standard
Overall size	4550 mm W × 2040 mm D × 2100 mm H
Frame	50 × 25 mm RHS mild steel; hot-dip galvanised to ISO 1461:2022
Mounting	Bolt-down base plates for installation on a suitable hard surface
Included Cycle Rack	Six square stands on shared base bar; 750 mm spacing; central locking bar
Gates & Locking	Two perforated gates; fixed perforated centre infill; 5 mm galvanised steel locking plates

Panel Combinations and Prices

Clear UV2 PETG rear and side panels are included as standard. Impact-resistant and UV-stabilised on both sides, they provide visibility and allow natural light through. Coloured Skybond ACM and galvanised steel panels are available as opaque alternatives for greater privacy and screening.

All five panel configurations include the gated enclosure and twelve-bike rack as standard. Coloured rear-only options retain clear PETG side panels.

Gated shelter panel selection (rack included)	Ex VAT	Inc VAT
Complete shelter – PETG rear + side panels	£3,348.00	£4,017.60
Coloured Skybond ACM rear + clear PETG sides (+£287 ex VAT)	£3,635.00	£4,362.00
Coloured Skybond ACM rear + side panels (+£628 ex VAT)	£3,976.00	£4,771.20
Galvanised steel rear + clear PETG sides (+£808 ex VAT)	£4,156.00	£4,987.20
Galvanised steel rear + side panels (+£1,329 ex VAT)	£4,677.00	£5,612.40

Hot-Dip Galvanising and Optional Powder Coating

The mild-steel frame is hot-dip galvanised after fabrication to ISO 1461:2022 as standard. An optional RAL-colour powder-coated finish can be applied over the galvanising to form a duplex coating system. Please see our Powder Coating page for finish options, coastal recommendations and additional benefits.

Panel Materials at a Glance

- **Clear UV2 PETG.** 3 mm transparent glazing, impact-resistant and UV-stabilised on both sides.
- **Coloured Skybond ACM.** 3 mm aluminium composite sheet with 0.3 mm aluminium skins; colours can be mixed and matched across individual panels.
- **Galvanised steel panels.** 1.6 mm DX51D sheet, continuously hot-dip galvanised to EN 10346, with a silver-grey surface showing natural variation in tone and pattern.

Bespoke Configurations & Project Requirements

Urbanfab works with customers across the UK, from individual enquiries and single-site installations to larger developments and multi-site projects. Options include tailored panel materials and colours, alongside bespoke cycle rack layouts.

We can also work alongside project timescales, coordinate or delay deliveries to suit installation schedules, and arrange deliveries across multiple sites, with reduced carriage costs where applicable.

Delivery and Installation

Free UK mainland delivery is included. For destinations outside the UK mainland, please contact us for a tailored delivery quotation.

Standard stock configurations are normally delivered within 4–5 days. Please allow approximately 7 working days for coloured panels. Optional powder coating normally adds 3–4 working days. Bespoke requirements may take longer; we will confirm timescales when arranging your order.

The shelter is supplied flat-packed and ready for assembly, with the required frame and panel assembly fixings included. The frame is designed for bolt-down installation on a suitable hard surface. Ground anchors are available separately for a range of hard surfaces at a small additional cost. We'll contact you after ordering to discuss the most suitable options for your installation.

Ordering Information

Before ordering, please check the available space, installation surface and site access. Please let us know your preferred panel combination and colour (where applicable), delivery postcode, preferred delivery date and any bespoke requirements or alternative layouts you would like to discuss for your project.

Further information about order preparation, delivery arrangements and aftercare is available on our Delivery Information page.

Need help choosing the right option? Our experienced team is happy to advise on shelter sizes, specifications, finishes, galvanising, delivery and installation. You'll speak to real people who can offer practical advice tailored to your requirements.

Prices checked against the Urbanfab product listing on 18 October 2026. A quotation confirms the final specification, price and delivery date.
