Lancaster Eco Utility / Smoking Shelter 4.1 Metre

Product Datasheet | Lancaster Range | 25 October 2026

The Urbanfab Lancaster Eco 4.1 Metre Utility / Smoking Shelter provides a generous, weather-sheltered space for commercial, industrial and educational sites. Its versatile design can accommodate outdoor equipment, staff break areas and other practical applications, with optional side-panel configurations to suit site requirements.

Lancaster Eco 4.1 Metre – shown with optional side panels; rear PETG panels included as standard

Panel Configurations and Prices

4 mm clear UV2 PETG rear panels are included as standard, allowing natural light through while maintaining visibility and helping protect occupants from wind and rain.

Shelter configuration & optional extras	Ex VAT	Inc VAT
Clear UV2 PETG rear panels included	£2,545.00	£3,054.00
Rear panels + half-height PETG side panels (+£260.00 ex VAT)	£2,805.00	£3,366.00
Rear panels + full-height PETG side panels* (+£451.00 ex VAT)	£2,996.00	£3,595.20
Optional powder-coated frame	**Please call to enquire**

Smoking Shelter Compliance

For smoking use, a roofed shelter must not be substantially enclosed under UK smoke-free regulations: at least 50% of the surrounding wall area must remain permanently open. Half-height side panels can offer additional shelter while maintaining an open layout; nearby walls and structures must also be considered. Full-height side panels are intended for alternative, non-smoking applications.

Hot-Dip Galvanised After Fabrication

The mild steel used in Urbanfab products is hot-dip galvanised after fabrication to ISO 1461:2022. Immersion in molten zinc helps protect the external frame and accessible internal surfaces of hollow steel sections.

The bonded zinc coating provides long-term corrosion protection, helping reduce future maintenance and repairs. Learn more at **urbanfab.com/why-we-galvanise/**.

Optional Powder Coating

An optional RAL colour powder-coated finish can be applied over the galvanising to form a duplex coating system. Please see our Powder Coating page for finish options, coastal recommendations and additional benefits.

Delivery and Installation

Free UK mainland delivery is included. Standard stock configurations are normally delivered within 4–5 days. For other destinations, please contact us for a quotation. Optional powder coating typically adds 3–4 working days.

The shelter is supplied flat-packed with frame and panel assembly fixings included. It is designed for bolt-down installation on a suitable hard surface. Ground anchors are available separately at a small additional cost; we'll contact you after ordering to discuss suitable options for your installation.

Ordering Information

Before ordering, please check the available space, installation surface, site access and nearby walls. When ordering, please let us know your preferred side-panel configuration, any powder coating or bespoke requirements (where applicable), and provide your delivery postcode, preferred delivery date and any special delivery instructions, such as restricted site access, designated delivery contacts or advance notice requirements.

Prices checked against the Urbanfab product listing on 17 October 2026. A quotation confirms the final specification, price and delivery date.
