Modular Covered Walkway System

Product Datasheet | Multi Walkways | 25 October 2026

The Urbanfab Multi Walkway is a flexible, modular shelter system for creating covered pedestrian routes, building connections and larger sheltered outdoor areas. Standard walkway sections can be ordered individually, and you can contact us at any stage to plan an extended, multi-bay layout tailored to your site.

Example of a larger multi-bay walkway with optional side panels. The listed price covers one standard 2 m × 1.5 m roof-only section

Dimensions and Construction

Specification	Details
Standard section with roof	2000 × 1500 mm
Approximate roof height	2100–2150 mm pent sloped roof
Frame	50 × 25 mm RHS mild steel; hot-dip galvanised to ISO 1461:2022
Roof panels	Clear UV2 PETG, UV-stabilised on both sides
Optional finish	RAL powder-coated frame available on request
Configuration	Modular sections; layout tailored to site requirements

Walkway configuration & optional extras	Ex VAT	Inc VAT
Standard 2 m × 1.5 m roof-only walkway section	£814.57	£977.48
Larger / bespoke configurations	Please call to enquire	
Optional powder-coated finish	Please call to enquire	

Standard Section and Pricing

The online price covers one standard 2 m × 1.5 m roof-only walkway section with 3 mm clear UV2 PETG roof panels. The larger multi-bay walkway shown is for illustrative purposes only. Larger layouts, alternative sizes, side-bar arrangements and bespoke panel options are quoted separately.

Modular Layouts and Side-Bar Options

Individual sections can be extended to form longer walkways, building-to-building connections and larger covered areas. Side bars can be fitted at ground level, positioned with a small clearance or omitted for an open-sided design. The final configuration is tailored to each project.

Hot-Dip Galvanised After Fabrication

The 50 × 25 mm RHS mild-steel frame is hot-dip galvanised after fabrication to ISO 1461:2022. Immersion in molten zinc helps protect the external frame and accessible internal surfaces of hollow steel sections. The bonded zinc coating provides long-term corrosion protection, helping reduce future maintenance and repairs. Learn more at urbanfab.com/why-we-galvanise/.

Optional Powder Coating

An optional RAL colour powder-coated finish can be applied over the hot-dip galvanising to form a duplex coating system. Please see our Powder Coating page for finish options, coastal recommendations and additional benefits.

Delivery and Installation

Free UK mainland delivery is included. Standard single sections are typically delivered within 7 days; larger or bespoke layouts may take longer. Each section is supplied flat-packed with frame and panel assembly fixings. Ground anchors are available separately at a small additional cost. We'll contact you after ordering to discuss the most suitable ground-anchor options for your installation surface.

Planning a Larger Walkway?

For extended or multi-bay projects, please contact us with your approximate dimensions, preferred layout and any powder-coating or other bespoke requirements so we can provide a quotation. Please also include your delivery postcode, preferred delivery date and any special delivery instructions.
