

Slimline Smoking Shelter Range

Product Datasheet | Slimline Range | 25 October 2026

The Urbanfab Slimline Smoking Shelter Range provides practical, weather-sheltered outdoor smoking areas for approximately 1–8 people across four sizes: Micro, Small, Medium and Large. Suitable for commercial, residential, educational and workplace environments, the range offers a choice of shelters to suit different site requirements.

Micro

Small

Medium

Large

Individual Slimline models shown for illustration; images are not to scale.

Slimline Shelter Sizes & Specifications

Model / Capacity	Width	Depth	Height
Micro – 1–2 people	1000 mm	1016 mm	2100 mm
Small – 2–4 people	1525 mm	1016 mm	2100 mm
Medium – 4–5 people	2050 mm	1016 mm	2100 mm
Large – 6–8 people	3050 mm	1016 mm	2100 mm

Slimline Shelter Range – Prices

Shelter configuration	Ex VAT	Inc VAT
Micro Slimline – half-height panels included	£470.00	£564.00
Small Slimline – half-height panels included	£515.00	£618.00
Medium Slimline – half-height panels included	£559.00	£670.80
Large Slimline – half-height panels included	£624.00	£748.80
Optional RAL powder-coated finish	Please call to enquire	

Prices include clear UV2 PETG half-height rear and side panels and free UK mainland delivery. Standard frame finish: hot-dip galvanised mild steel.

Hot-Dip Galvanised After Fabrication

The 50 × 25 mm RHS mild-steel frame is hot-dip galvanised after fabrication to ISO 1461:2022. Immersion in molten zinc helps protect the external frame and accessible internal surfaces of hollow steel sections. The bonded zinc coating provides long-term corrosion protection, helping reduce future maintenance and repairs. Learn more at urbanfab.com/why-we-galvanise/.

Panels & Smoking Shelter Compliance

All four sizes are supplied with 3 mm clear UV2 PETG half-height rear and side panels, UV-stabilised on both sides. These help reduce exposure to wind and rain while maintaining visibility and allowing natural light through.

For smoking use, a roofed shelter must not be substantially enclosed under UK smoke-free regulations: at least 50% of the surrounding wall area must remain permanently open. Nearby walls and structures should also be considered when positioning the shelter.

Optional Powder Coating

An optional RAL colour powder-coated finish can be applied over the hot-dip galvanising to form a duplex coating system. Please see our [Powder Coating page](#) for finish options, coastal recommendations and additional benefits.

Installation & Assembly

Slimline Shelters are supplied flat-packed with frame and panel assembly fixings, along with Anka bolts for installation on a suitable concrete surface. For alternative installation surfaces, we'll contact you after ordering to discuss suitable ground-anchor options.

Delivery and Installation

Free UK mainland delivery is included. Standard stock configurations are normally delivered within 4–5 days. Optional powder coating typically adds 3–4 working days. For other destinations, please contact us for a delivery quotation.

Ordering Information

Please select your required Slimline size when ordering and provide your delivery postcode, preferred delivery date and any special delivery instructions. For optional powder coating or bespoke requirements, please contact us to discuss your needs.
