Bamburgh Wheelie Bin Store

Product Datasheet | Commercial Bin Stores | 27 October 2026

The Urbanfab Bamburgh Wheelie Bin Store provides screened storage for up to four standard 240-litre household wheelie bins. Choose an open or gated front, with or without a roof. The optional lockable gates provide controlled access and help keep bins contained during changing weather conditions, while 3 mm Skybond ACM panels create a smart, low-maintenance finish for a tidy, professional-looking waste storage area.

Bamburgh Wheelie Bin Store pictured with optional lockable gated front and roof

Wheelie Bin Size Guide

The Bamburgh is designed to accommodate up to four standard 240-litre household wheelie bins, subject to their individual dimensions. The table below shows approximate dimensions for a range of common wheelie bin sizes. Please check your own bins and allow clearance for access and manoeuvring.

Bin size	Width	Depth	Height
80 L	449 mm	513 mm	935 mm
120 L	480 mm	543 mm	930 mm
140 L	480 mm	544 mm	1060 mm
240 L	580 mm	740 mm	1070 mm
360 L	601 mm	880 mm	1140 mm

Panel Materials and Colour Options

The Bamburgh is supplied with 3 mm Skybond aluminium composite (ACM) side and rear panels. Available colours include White, Grey, Anthracite Grey, Black, Blue, Racing Green, Red and Yellow. Reversible matt and gloss faces allow the preferred finish to be selected during assembly. Please see our **Panel Options** guide for specifications and care information.

Front and Roof Configurations

The Bamburgh is available with an open or gated front, with or without a roof. Where the gated option is selected, lockable perforated galvanised steel gates provide controlled access while maintaining airflow. Small vents near the tops of the side panels provide additional ventilation. The optional sloping pent roof includes a matching Skybond ACM panel to help direct rainfall away and provide overhead weather protection.

Hot-Dip Galvanised as Standard

The 50 × 25 mm RHS mild-steel frame is **hot-dip galvanised** after fabrication to ISO 1461:2022. Immersion in molten zinc helps protect external steelwork and accessible internal surfaces of hollow sections. The bonded zinc coating provides long-term corrosion protection.

Installation & Assembly

The Bamburgh Wheelie Bin Store is supplied flat-packed for self-assembly, with the required assembly fixings and concrete Anka bolts included. Please allow approximately 2–3 hours for assembly by two people.

The 6 mm galvanised steel base plates have four anchor holes each for secure installation on a suitable concrete surface. Alternative ground anchors are available for other suitable hard surfaces at a small additional cost. We'll contact you after ordering to discuss suitable options.

Delivery Information

Free UK mainland delivery is included within 10 days. We'll confirm the expected delivery timescale after ordering. For other destinations, please contact us for a tailored delivery quotation.

Ordering Information

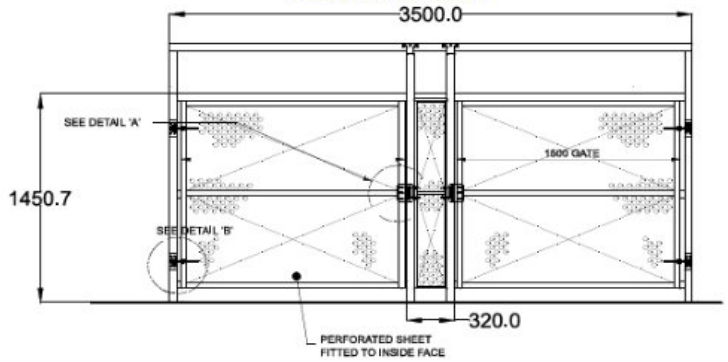

Before ordering, please check your wheelie bin dimensions. Select your preferred front configuration, roof option and ACM panel colour, and provide your delivery postcode, preferred delivery date and any special delivery instructions. For bespoke requirements, please contact us — we'll be happy to discuss your needs.
