Beadnell Wheelie Bin Store

Product Datasheet | Commercial Bin Stores | 26 October 2026

The Urbanfab Beadnell Wheelie Bin Store provides discreet, screened storage for up to two standard household wheelie bins. Choose an open or lockable gated front, with or without a roof, to suit your site. Its hot-dip galvanised steel frame and Skybond ACM panels is ideal for practical, low-maintenance waste storage.

Beadnell Wheelie Bin Store shown with gated front and black ACM side and roof panels; other configurations available.

Configurations and Prices

Beadnell configuration	Ex VAT	Inc VAT
Open front – no roof	£724.00	**£868.80**
Open front – with roof	£822.00	**£986.40**
Gated front – no roof	£1,462.00	**£1,754.40**
Gated front – with roof	£1,560.00	**£1,872.00**

Dimensions and Construction

Specification	Details
Capacity	Up to two standard household wheelie bins
Overall size	2050 mm W × 1016 mm D; approx. 2 m² footprint
Height (front / rear)	1500 mm / 1450 mm
Frame	50 × 25 mm RHS mild steel; hot-dip galvanised to ISO 1461:2022
Base plates	6 mm steel; bolt-down installation
Standard panels	3 mm Skybond ACM side and rear panels

Wheelie Bin Size Guide

Bin size	Width	Depth	Height
80 L	449 mm	513 mm	935 mm
120 L	480 mm	543 mm	930 mm
140 L	480 mm	544 mm	1060 mm
240 L	580 mm	740 mm	1070 mm
360 L	601 mm	880 mm	1140 mm

The following dimensions are indicative only; bin sizes can vary between suppliers and local authorities.

Panel Materials and Colour Options

The Beadnell is supplied with 3 mm Skybond aluminium composite (ACM) side and rear panels. Available colours include White, Grey, Anthracite Grey, Black, Blue, Racing Green and Yellow. The reversible matt and gloss faces allow the preferred appearance to be selected during assembly. Please see our **Panel Options** guide for panel specifications and care information.

Front and Roof Configurations

The Beadnell is available with an open or gated front, with or without a roof. The open-fronted design provides easy access while the side and rear panels screen the stored bins. Alternatively, lockable perforated galvanised steel gates provide controlled access while maintaining airflow.

The optional sloping pent roof includes a matching Skybond ACM panel to help direct rainfall away and provide additional overhead weather protection.

Hot-Dip Galvanised After Fabrication

The 50 × 25 mm RHS mild-steel frame is hot-dip galvanised after fabrication to ISO 1461:2022. Immersion in molten zinc helps protect external steelwork and accessible internal surfaces of hollow sections. The bonded zinc coating provides long-term corrosion protection, helping reduce future maintenance and repairs.

Installation & Assembly

The Beadnell Wheelie Bin Store is supplied flat-packed for self-assembly, with the required assembly fixings and concrete Anka bolts included. Assembly typically takes approximately 2–3 hours for two people.

The 6 mm galvanised steel base plates have four anchor holes each for secure installation on a suitable concrete surface. Alternative ground anchors are available for other suitable hard surfaces at a small additional cost. We'll contact you after ordering to discuss suitable options.

Delivery Information

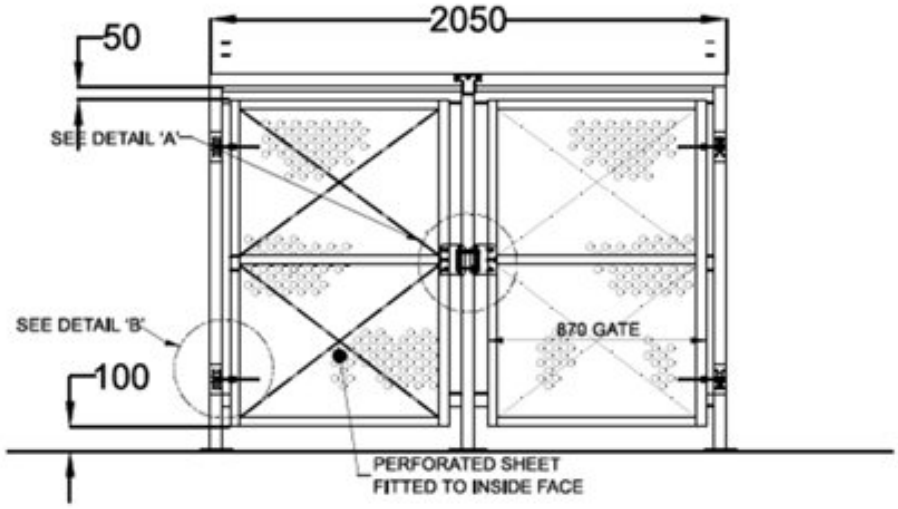

Free UK mainland delivery is included, normally within 10 days and we'll confirm the expected delivery timescale after ordering. Optional powder coating typically adds 3–4 working days. For other destinations, please **contact us** for a tailored delivery quotation.

Ordering Information

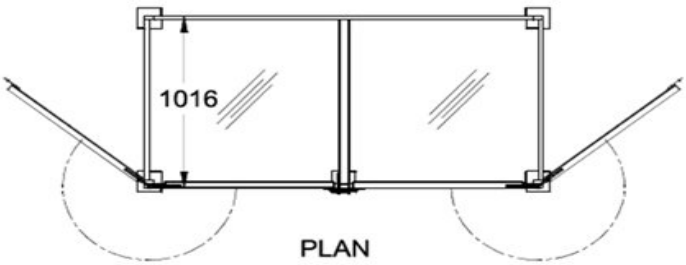

Before ordering, please check your wheelie bin dimensions and allow sufficient space for manoeuvring. Select your preferred front configuration, roof option and ACM panel colour, and provide your delivery postcode, preferred delivery date and any special delivery instructions. For powder coating or bespoke requirements, please contact us.
