# Urbanfab Cycle Racks

*Product Datasheet | Cycle Parking | 29 October 2026*

Urbanfab cycle racks were developed in response to customer demand for cycle parking with an additional central locking bar and a professional, contemporary appearance. Designed for practical everyday bicycle parking, they allow both the frame and wheels to be secured. A hot-dip galvanised finish provides low-maintenance, long-term corrosion protection.

*Urbanfab three-stand cycle rack assembly, providing parking for six bicycles.*

## Cycle Rack Prices

| Cycle rack | Ex VAT | Inc VAT |
|---|---|---|
| 2 Bike Cycle Rack | £63.48 | **£76.18** |
| 4 Bike Cycle Rack | £142.80 | **£171.36** |
| 6 Bike Cycle Rack | £166.80 | **£200.16** |
| 8 Bike Cycle Rack | £294.00 | **£352.80** |
| 10 Bike Cycle Rack | £376.00 | **£451.20** |

## Product Overview

| Specification | Details |
|---|---|
| Capacity | Individual stand (2 bikes) or complete racks (4–14 bikes) |
| Parking arrangement | Two-sided parking; additional locking bar on each stand |
| Individual stand size | Approx. 800 mm H × 750 mm W |
| Steel finish | Hot-dip galvanised after fabrication to ISO 1461:2022 |
| Installation | Plate-mounted complete racks; ground anchors available separately |

Tel: 0191 534 3211 E-mail: sales@urbanfab.com Web: www.urbanfab.com

## Dimensions and Stand Spacing

Each individual cycle stand measures approximately 800 mm high × 750 mm wide and incorporates a central locking bar, providing an additional mid-level point for D-locks and chains when securing a bicycle frame and wheels. Complete rack capacity is determined by the number of stands.

| Rack capacity | Base bar length | Stand spacing |
|---|---|---|
| 4 Bike | 996 mm | **750 mm** |
| 6 Bike | 1,481 mm | **642 mm** |
| 8 Bike | 2,363 mm | **642 mm** |
| 10 Bike | 2,789 mm | **660 mm** |
| 12 Bike | 3,900 mm | **750 mm** |
| 14 Bike | 4,000 mm | **642 mm** |

## Bespoke and Extendable Racks

Alternative stand spacing and layouts are available to suit individual site requirements. Larger assemblies accommodating 16 or more bikes are also available on request. Please **contact Urbanfab** to discuss bespoke requirements.

## Galvanised and Optional Powder-Coated Finishes

Cycle rack frames are manufactured from mild steel and hot-dip galvanised after fabrication to ISO 1461:2022 as standard. For everyday cycle parking, we generally recommend the galvanised finish, as regular contact with bicycle locks and chains can scratch or chip powder-coated surfaces.

For customers seeking a coloured finish, optional powder coating is applied over the galvanised steel in a choice of RAL colours at an additional cost, typically adding 3–4 working days to the lead time. For further information, please see our **powder coating** guide.

## Installation and Fixings

Complete cycle racks (4–14 bikes) are supplied with base bars and the fixings required to attach the individual cycle stands during assembly. The racks are designed for anchoring to a suitable hard surface, with ground anchors available separately at a small additional cost. We'll contact you after ordering to discuss suitable options for your installation.

Individual 2-bike cycle stands are supplied without a base bar and are designed for direct ground installation.

## Delivery and Ordering

Urbanfab Cycle Racks are competitively priced and kept in stock, with free UK mainland delivery within 4–5 days for standard configurations. For larger or bespoke configurations, or other delivery requirements, please contact us.

When ordering, please provide your delivery postcode, preferred delivery date and any special delivery instructions, such as restricted site access, designated delivery contacts or advance notice requirements.

*Prices checked against the Urbanfab product listing on 29 October 2026. A quotation confirms the final specification, price and delivery date.*
